Question: What were the strengths of this course, and in what ways can it be improved? Strengths Improvements

Strengths: Great material and delivery. Enjoyed the workbook. Improvements: Spent a lot of time focused on the workbook and would have benefited from more interactive moments.

The session on becoming a person of influence with Kevin Johnson seemed to be a pretty basic and easy topic. I was so impressed by the level of knowledge Kevin had, and honestly how he was able to present the entire day on as little as 22 powerpoint slides. Kevin spoke from personal experiences, and encouraged participants to engage and question. overall, a really great presentation and even BETTER presenter. Thanks Kevin!

Strengths: Good workbook. Improvements: Could have spent a little less time focused on just the slides and workbook and more time on interactive activities. Overall just a great presentation. Only 22 slides, however very much engaged the entire session/day.

Question: Comments

The best class of the week! I wish I had more classes with Kevin during the ELP. He challenged my thinking and I ended the day with a new appreciation for influence. His teachings are out of the box, and not what I typically experience, which kept me engaged. He was very natural, which is why I felt the entire class remained engaged. Meaning, he didnt force a camera or even participation, but his style naturally drew the class to participate freely. He was very relatable and intelligent.
